TEXAS G.O.P. CAMPAIGN IS NOW BEING PLANNED IN DALLAS

BUTTE TO MAKE STATEMENT TO PUBLIC NEXT SUNDAY

(By United Press)
DALLAS, Texas, Sept. 18.—Plans for the republican campaign, headed by Dr. George Butte of Austin, are being worked out at a conference between the nominee and state party leaders here. Dr. Butte said he would issue a statement for release in Sunday papers, outlining the issues of the campaign. "I am against the Klan," Butte said. "That has already been said for me." After the statement has been published I will talk freely about whatever the people are interested in.

Dr. Butte will manage his own campaign. A speaking tour and arrangements for a staff of speakers to assist Butte are being worked out.

The conference is scheduled to last two days.

Butte has been in conference at the capitol during the early part of the week with R. B. Creager, Texas republican national committeeman; Charlie A. Boynton of Waco, acting chairman of the State Republican Executive committee and other leaders. One of the first tasks of the conference here, according to Clinton S. Bailey, state director of the republican organization, will be the selection of a campaign manager for Butte.

Rotary Takes Up Loan Fund Today

The Mexia Rotary club met in regular weekly luncheon at the top cafe at noon Thursday. The hour had been designated as one in which a special effort would be made to raise funds for the Rotary School Loan, special appeals having been made by J. Sanford Smith, Chairman of the Loan Committee.

The meeting was called to order by President Hardy Eubanks. Following introduction of visitors and an expression of condolence to Rotarian A. R. Etchison upon the death of his father recently at Waco, the gavel was turned over to Mayor Ernest Watson who was in charge of the program. The committee in charge of the program for the day was composed of Jack Womack, Judge W. M. White and Mayor Watson. It was announced that Mr. Womack was on the sick list today and Judge White was at Groesbeck. In view of the absence the Mayor, cooperating in the move to observe Constitution week over the country called on A. Garland Adair and W. S. Banks to discuss the Constitution. They did in brief. Mr. Banks used the opportunity to stress upon Rotarians the benefits and pleasures from living up to the spirit of Rotary as expressed in the motto. Both urged that zealous efforts be made to make the Rotary Loan fund a success and stressed the importance of action now. Slips were passed for all Rotarians to sign to show how much they were to invest in the fund. The amount of the fund raised will be announced as soon as all Rotarians submit their statement.

Gabe Gazell, known in Mexia as the song bird of Mexia, was present and was called upon to sing a song. He responded by stating that he never sang solos but led in a lively sing-song that put all the birds in cages and out in the meeting place a singing.

GOLF CHAMPIONS

(By United Press)
HAMILTON, Ohio, Sept. 18.—Miss Clonna Gollett, Providence, R. I., won one of the greatest matches of the Canadian women's open golf championship matches Wednesday when she defeated Miss Priscilla Marwell of Rockville, Conn., two and one.

Miss Louise Fordyce of Youngstown, Ohio, was eliminated in yesterday's playing by Mrs. F. C. Letts of Lake Forest, Ill., three and up.

AIRPLANES BOMB PEKIN RAILROADS

(By United Press)
LONDON, Sept. 18.—A fleet of Gen. Chang Tso Lin's airplanes early today started bombing the Chi Li army post of Shang Hai Kawan, according to a dispatch to the Central News. The attack was an attempt to blow up the Pekin Railroad but it is reported that the damages were not heavy.

Giants Unworried Near End of Race

(By United Press)
(Manager of the New York Giants)
(Copyright 1924 by United Press)
NEW YORK, Sept. 18.—While I do not care to make rash statements or predictions, I can voice my opinion about the National League pennant race by saying that the Giants are letting the other fellows do the worrying. I have had confidence in my team since the season started and there is no reason to waver now.

The Giants are an experienced ball club. They have been through places just as tight in the past three years and they survived because they were able to recover after every slump.

It is something for a ball club to keep its head up and its feet steady in a slump when a rival team is charging through the league like the Brooklyn team was. But the Giants did that and they played their game ball when the situation was most serious.

The Giants have more of a real punch, a punch in a crisis than the Robins or the Pirates and it is largely due to the ability of one or two players to deliver in a pinch that we have been able to keep going.

The Giant pitchers are working better now and they should improve in the final two weeks of the pennant race.

It is natural that players should be under such a suspension when they turn into the final drive in such a close pennant race. Experience counts then and it did this year with the Giants. They have been in slumps but they never have been in a panic or in danger of blowing up. They have all been confident and of course, that made me confident in them.

WASHINGTON, Sept. 18.—Senator Robert LaFollette, independent candidate for president, left for New York tonight, where he will make his first general speech of the campaign at Madison Square Garden tonight.

War Is Declared On Chang Tso Lin

(By United Press)
PEKIN, Sept. 18.—A presidential mandate issued by Esao Kun today formally declared war against Chang Tso Lin, Manchurian war lord, whose forces are engaging Chi Li troops north of the capital.

Chang declared war against the Pekin government last week. Wu Pei Fu, most powerful leader of the Chi Li faction, was appointed generalissimo to conduct an immediate punitive campaign against Chang.

WORLD AVIATORS LAND AT NOON AT ST. JO

(By United Press)
ROSCRANS, Flying Field, St. Joe, Mo., Sept. 18.—The world flyers landed here at 12:29 this afternoon, and after a brief stop planned to hop off for Muskogee, Oklahoma, where they will spend the night. Ten thousand people greeted the flyers.

FORT CROOK FLYING FIELD, Omaha, Sept. 18.—More than one hour and a half behind schedule time the army round the world flyers left here for St. Joseph, Mo., at 10:30 this morning. Cloudy, misty weather delayed the start. The flyers planned to reach the next landing at 1 o'clock for lunch.

At 8 a. m. the sun broke through the clouds and mist. At this hour Lieut. Smith announced that the flight could be made but that the start would be delayed probably an hour. Reports from the south also indicated that the weather is clearing and good flying weather is expected later in the day.

OMAHA, Neb., Sept. 18.—The skies were overcast and visibility poor two hours before the army globe girding airmen were scheduled to "hop off" for Muskogee, Okla., at 9 a. m. Unless weather conditions improve or reports from St. Joseph show clearer weather in that vicinity the flight probably will be delayed, officers at Fort Crook flying field believed.

Lieuts. Smith, Nelson and Wade plan to leave Omaha for St. Joseph at 9 a. m.

Only a short stop is scheduled for the Missouri city and then the flyers take off for Muskogee, Ok. They plan to circle over Kansas City and other larger cities on the route.

Chinese Republicans Victorious Over Kan

(By United Press)
SHANGHAI, Sept. 18.—American Marines and other international troops mobilized for defense of their countrymen in the foreign settlements here tonight, with a panicky rush from the war zone expected momentarily. Chekiang forces were routed and the victorious republican troops broke through the line and advanced on the city after a crushing blow was delivered early today.

General Hsiang's ally, General Kan, surrendered with all of his troops, to the republican commander.

The remaining resisting Chekiang forces are surrounded and their surrender is expected momentarily.

THE WEATHER.

Texas—Unsettled, scattered showers.

AN IMPORTANT CALL TO SERVICE!

No more important meeting has been called in Mexia for several years than that scheduled at the Mexia Public Library for Friday afternoon, when plans are to be perfected for entertaining the Texas Synod of the Presbyterian Church, U. S. A., which meets in Mexia November 8-13.

Men and women from all denominations are urged to come to the help of their neighbors and fellow citizens in this instance. The Synod will do much in the southwest to correct the impression made when martial law was declared here, the history of which was partially told and with much damage by politicians in the recent gubernatorial campaign. Visiting delegates, ministers and laymen alike, will be agreeably pleased when they arrive, if they are met with a glad hand instead of by the hi-jacker whom they long had heard was so numerous here. They will be pleasantly surprised when they step off the train and find paved streets, handsome churches and fine school buildings and imposing store build-

ings and factories instead of the shock town that was portrayed along with pictures of Winter Garden.

It's the first state wide convention brought to Mexia since the oil boom. With its proper entertainment, it will open the way for more conventions, more visitors and a bigger and better Mexia.

There is no way to estimate the value the Synod will be to all Mexia. Its influence will continue to live in this community and from hundreds of pulpits and in hundreds of newspapers, word will go out that Mexia is one of the real upstanding, outstanding forward going municipalities, a city that vision is building, and one where her great citizenship are imbued with the spirit of serving their city, "For Mexia I Will."

It will be great to have a part in the hospitality that should blossom into fullest beauty when the visitors arrive.

Let all committeemen, by all means, and others interested, remember, that Friday afternoon at 4:00 is the hour to act. Be there!

ROW CONTINUES ALL NIGHT LONG IN LEAGUE MEET

(By United Press)
HOUSTON, Texas, Sept. 18.—Police and deputy sheriff were called out here early this morning to settle a row which threatens to split the headquarters of the "League of Protestant Women." Attempts on the part of one faction to oust two national officers is believed to have caused the row which lasted from midnight until dawn.

GRUESOME WORK RECOVERING BODIES IS NEAR END

(By United Press)
KEMMERER, Wyo., Sept. 18.—The last of the bodies of 35 miners who perished in the explosion in Sublet mine No. 5 of the Kemmerer Coal Company Monday noon will be removed today, officials believed.

Bodies of 31 victims now lie in morgues here. Rescue workers said that four others had been located in the mine but there would be some difficulty getting them to the surface through the debris caused from the explosion.

Only 12 men escaped alive.

39 Miners Taken From Death Mine

MEMMERER, Wyo., Sept. 18.—The bodies of 39 miners have been recovered from mine number 5 of the Kemmerer Coal Company, wrecked by a blast Monday. Twelve bodies had previously been recovered. Fifty-one men are known to have been in the mine, officials said.

NEW YORK, Sept. 18.—Justice Aaron Levy was confronted in Supreme Court by a man who wanted to have his name, also Levy, changed. The request was granted, and the man assumed the name of Lane.

White Slavers Get The Money Nightmare Says

(By United Press)
NEW YORK, Sept. 18.—A girl who talked in her sleep gave a clue which resulted in the arrest of James Nelson and Peter Kelley in Brooklyn and a confession they had gained more than \$10,000 through white slave activities in the Metropolitan area since June.

Police also held two girls, Helen Nelson, 23, a strikingly pretty brunette, and May Smith, 22, formerly of Hartford, Conn.

The Smith girl, on a recent visit to a sister in New Rochelle had a nightmare in which she told of her life. The sister notified Brooklyn police and the arrest followed.

CLARENCE LOVELESS IS WEDDED TO RUTH LOVING

(By International News Service.)
AMARILLO, Texas, Sept. 18.—"Loving-Loveless Wedding" read the caption on the society page of an afternoon newspaper here.

"Quite common," remarked a reader, but the item revealed that Miss Ruth Loving had taken for her husband Clarence Loveless. Not inappropriate that a loveless young man should take a loving bride.

DETROIT TIGERS PRACTICALLY BEATEN IN AMERICAN

(By United Press)
NEW YORK, Sept. 18.—Taking an other unexpected licking from the feeble Philadelphia Athletics, the Detroit Tigers practically have passed out of the American League pennant race.

Keeping up a season of long inconsistency, the Tigers have failed to hold their stride in the soft places and their chances to get into the world's series have just about gone. The Tigers have nine more games to play. If they should happen to win all nine of them, something that is not probable, the leading Yankees and Senators would have to win only five out of their remaining 11 games to finish ahead of them.

The Yankees took advantage of an opportunity yesterday and worked their way back into a tie with the Washington Senators for first place in the American League race. The champions took a double header from the St. Louis Browns while the Senators were disposing of the Cleveland Indians in one game. The Yankees and Senators have won and lost the same number of games which makes the situation more complicated than it is in the National League. Neither the champions nor young Buck Harris' club are cracking under the terrific strain and it looks like a battle right up to the wire.

Bad weather kept all the National League teams idle yesterday and there was no change in the standing.

The Pittsburgh Pirates, in rather a precarious condition, will start tomorrow in the battle for their lives. They go into a three game series against the Brooklyn Robins and then cross the bridge for three games with the Giants. The National League pennant may be decided before the six games are finished.

Thirteen Hundred Rebels Are Killed By India Royalists

(By United Press)
ALLAHABAD, India, Sept. 18.—Thirteen hundred rebel tribesmen were killed in two main battles with royalist forces at Jajimain and Logar, according to African newspapers, which describe severe fighting.

Doctors Dubius Over Recovery of Novelist

PARIS, Sept. 18.—Doctors were dubious over the recovery of Anatole France, the novelist, according to a story published in the Matin today.

The story denies that the writer is out of danger and says that he eats little and remains in bed except for 30 minutes daily. He will receive no one.

NEW YORK, Sept. 18.—The first returns of the Literary Digest's poll of 15,000,000 votes shows President Coolidge running well in the lead with LaFollette second and David third.

WHEELER FIGHTS DAUGHERTY GANG

(By United Press)
TOLEDO, Ohio, Sept. 18.—Fighting the "Daugherty system and the Ohio gang." Senator Burton K. Wheeler, independent vice presidential candidate moved toward Columbus today, expecting recriminating action against himself by Daugherty's friends before night.

Further information is claimed to have been received by him indicating that upon his arrival in Columbus this afternoon he might be served with papers making him a defendant in a suit for damages.

The case is reported to be an outgrowth of the automobile accident in Butte, Mont., five years ago when while riding in the car of a friend a smash up occurred in which a person was injured. Wheeler believes the suit will be instituted in an attempt to intimidate him against attacking "the Daugherty gang," he says.

Wheeler intends to combine his attacks in this state upon Daugherty and the present system of the United States Supreme Court. Here in Ohio for 12 years there has been a new State Constitution which prevents the Supreme Court from overruling any act of the legislature unless six of the seven members of the court favor it. This is precisely the same proposal sponsored by La Follette for the nation.

"Ohio would not now have its workmen's compensation laws if this were not the case," Wheeler claims. "Five of the state supreme judges desired to kill that law, desired to hold it unconstitutional. The two others by refusing to join in this attempt to override the legislature, saved that law for the people."

"For twelve years Ohio has had this safeguard against judicial tyranny. And yet Ohio is not held up to the rest of the country as an un-American state."

In speeches at Cleveland where Wheeler was given a bigger audience than he has had heretofore two facts show the spirit of his followers were reported to him.

The scrub women of Cleveland applied to join the local La Follette-Wheeler club but were informed that the initiation fee is \$1 and could not be dispensed with. Half of the women paid 50 cents down and the other half promised to make an installment upon their initiation fee on the next payday.

(By United Press)
ST. PAUL, Sept. 18.—The American Legion national convention congress and the navy department bring the American sea power up to the terms of the 553 ratio naval armament agreement. "It's a well known fact," said the naval affairs committee report, "that the ratio now is with the United States in the minority position."

New Mexico Editor Wins First Contest In State Meeting

(By United Press)
SANTA FE, New Mexico, Sept. 18.—Backers of Carl C. Magee, candidate for the Democratic nomination United States senator won their skirmish of the State Convention when a motion to give the Senate nomination precedence over the balling for governor carried by a 2 vote.

The motion was introduced by Swope, mayor of Albuquerque leader of the Magee forces. Its passage was regarded as a distinct expression of the convention in Magee's favor.

Magee is editor of the New Mexico State Tribune, a Scripps-How newspaper, now out of jail on a pending a court decision as to whether the governor of the state can pardon him after his conviction charges of criminally libeling court of Judge D. H. Leahy.

Bank Probe Is Begun In K.

(By United Press)
KANSAS CITY, Mo., Sept. 18.—Investigation of deals alleged have contributed to the \$4,000,000 loss of the old Commonwealth National Bank here was to get underway in Federal Court here following indictment of L. C. Smith, former President of the bank, and brother, Granville M. Smith, former chairman of the bank's board of directors.

The brothers were expected to appear voluntarily in court for arraignment. A Federal grand jury indicted them, with two others whose names were not given, at St. Joseph yesterday.

Unsecured loans to cattlemen were said to be the basis of some of the indictments.

Granville Smith was a partner in the Smith-Ricker Cattle loan concern which crashed here during the cattle price deflation in 1920, resulting in a loss to creditors and bank of nearly \$7,000,000.

Dawes Hotels To House Needy Ones Maintained in Chicago and Boston In Memory of His Son and Mother

CHICAGO—A rugged exterior often conceals in a man the finest of sympathy and gentleness.

It was not until he had been nominated for the Vice-presidency that the numerous benefactions sponsored by General Charles G. Dawes were revealed and then the disclosure was made by others than the candidate himself.

This picturesque army officer, known to the average American chiefly for the spectacular services he has performed as an adviser to the allied governments in the discussion of reparations, has for years, without ostentation, been ministering to that most completely forgotten figure in human life—the down-and-out, destitute willing-to-work man.

There stands a hotel in Chicago which, while it is not large, is comfortable. Its rates are so cheap as to be almost nothing. The service is given by its attaches as conscientiously as though it were the finest in the city. There is no charitable atmosphere to embarrass the jobless and disheartened who patronize it.

It is the Rufus F. Dawes Hotel for Destitute Men, named by the General for Rufus Fawcett Dawes, his 21 year old son who drowned at Lake Geneva in September, 1912. Between the father and son there had been so deep an affection that they were held up as ideal examples of that relationship. It was his desire to erect a memorial worthy of the youth of whom he said:

"The truly great character must unite unusual strength and determination with gentleness. My boy was imperious. He recognized no superior on earth, and yet was the tender and intimate friend of the weak and humble."

Thus the Rufus F. Dawes Hotel came into being, financed by the General and operating under a code framed by him.

Soon after the Chicago hotel opened a similar institution was begun in Boston and it has proved as valuable to the community as the forerunner.

Then General Dawes paid a profound tribute to his mother. He determined that there should be a similar hotel for women in Chicago, and when it had been erected he named it for her—the Mary Dawes Hotel. Here also charity operates without its label and the struggling working woman may find a haven of home atmosphere.

In the Height of FASHION

Announcing Our Complete Fall Showing in All Depts. Starting Friday

Ready To Serve You

Direct from the Fashion marts of the East, come these scores of New Fall Modes in Ladies Misses and Children's apparel.

Every department throughout the store is ready with the New Fall lines—it is the greatest early season exposition we have ever attempted.

This Another Dress Season

Fashion has decreed this, another Dress season, so we have collected hundreds of the season's New Fall Models for your selection.

Here you will find the best products of dozens of New York's best designers interpreted in such popular makes as—

- WINFIELD
- MAYBELLE
- LITTLE WOMEN

In the "Winfield" line we show the clever styles in the sizes 14, 16 and 18—dresses that portray youth in every line.

In the "Maybelle" line, we show a complete line of women's dresses in all sizes from 34 to 46, typically a woman's dress but with smart lines.

In the "Little Women's" line you will find models for Little Women, just as the name implies, that is, dresses for the small woman, cut especially for the small woman, dresses that will fit the small women with slight alterations.

In the Silk Dresses the popular numbers are of Faille, Bengaline and Crepe Satin.

In the cloth Dresses, the favorite materials are: Charmeen, plain or pin striped—Kasha Cloth, and French Crepe Twill.

All the browns, coppers, and all the blues and tans—these are the smart colors of Autumn, and these are modes New York has sponsored and repeated in Karner-Phillips models.

We show a complete line of women's and Misses Dresses at every popular price range, \$12.50—\$19.50—\$29.50 and up.

You Are Invited

We will take pleasure in showing you thru our New Fall Stocks—a trip of inspection will prove interesting—revealing as it will the approved modes in Ladies and Children's styles for Fall and Winter '24.

Superb New Coats For Fall

In Coats this season, it's the "wrappy wrap"—no belt—with one button at waist-line. They are of soft deep pile fabrics that make them as warm and comfortable as they are beautifully styled. The favored cloths this season are: Velnewo, Downywool, Flamingo, DeLucia, New Velvo, Lustrosa, Suava, Rubiat Larmen and Monticello.

As to colors, the shades of brown are exceedingly good. We show all the popular new colors as: Penny, Pheasant, Corona, Brown, Grey, Navy and Black.

THE COATS ARE RICH IN LUXURIOUS FUR TRIMMINGS!

Dame Fashion has decreed that the coat must be fur trimmed for Winter '24 and here you will find an immense assortment of the season's smart styles with fur trimmings. Some have only the fur collars—others have the collar of fur and fur band around sleeve—some have collar of fur—sleeve band of fur, and band of fur around the bottom of coat—and still others have the collar of fur—fur sleeve trimming—and entire front lapel of coat trimmed in fur.

And the fur lends that refined air that makes the Coat.

The furs most used this season are Beaver, Jap Mink, Squirrel, and Muskrat.

---As To Prices

As to prices—you will find our Coats attractively priced—and we show a complete line at all price ranges, from \$17.50 and up to \$95.00. And whatever price in between, you may wish to pay for your coat, you will find a model to suit you here.

SILKS AND DRESS GOODS

A trip through our Silk and Wool Goods section will reveal a wondrous array, of the new season's newest fabrics and colorings.

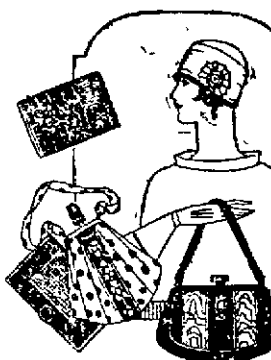

At Karner-Phillips you will always find complete lines of the newer Silks and Woolen Dress Fabrics—this season we show broader assortments than usual—more Fabrics—more colorings—more liberal price ranges.

Always glad to serve you.

DAINTY NECKWEAR

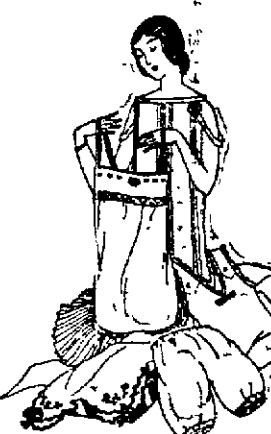

Dainty and ornate, the new neck things for Fall achieve a new elegance. You will find them all in our women's neck wear section. They are the sort that provides the finishing touch to the costume in a smart, distinctive manner.

THE NEWER BAGS

The illustration shows several of the New Bags fashion has brought forth to wear with the Fall costume. Their attractive lines and convenient arrangement of pockets, and fittings will make instant appeal.

Every bag is a good value at its price.

DAINTY NEW UNDERTHINGS

The charm and daintiness of your underthings should be in keeping with your loveliest frocks.

You will find us ready with a lovely assortment of Silk Gowns, Teds, Stepins, Bloomers, Shirts, Pantalettes, and Skirts.

We show a wonderful range of styles and colorings—prices too that will appeal.

HARD WORK AFTER FORTY
From time out of mind we have been taught that the early bird gets the worm and that success is attained only by those who work harder and longer than their fellows. Now comes Dr. Raymond Pearl of Johns Hopkins with a pile of statistics to show that there is danger in hard work. Although up to the age of forty it does not appear to injure a man of normal health, hereafter, Dr. Pearl finds, those in strenuous occupations have a higher death rate than men whose work is sedentary. The death rate of the outdoor worker is, in general, less than the indoor worker after forty; but coal-heavers, longshoremen and the like "die young"; and the greater the age the greater is the death rate. For persons from 55 to 64 it is 24.8 per cent more or men doing hard manual labor than for men in callings not requiring physical exertion.

The comment indicates that this is regarded as a new discovery, yet it has long been known that physical vigor gradually fades after middle life and that it is unwise to overtax declining strength. Experience has also taught that even mental application should be more moderate after middle life. Like any inanimate machine both the human body and brain must gradually wear out, or become less and less capable of long-sustained effort—an inescapable decline which every foresighted man will provide for as best he can. What is unexpected in Dr. Pearl's showing is the fixing of the beginning of failing powers as early as forty, when the average man has been supposed to enjoy his fullest prime. He recalls Dr. Osler's alleged dictum that men are "done for" after passing forty and might as well be chloroformed.

The Savannah News indirectly announces local prosperity by means of this rather long-winded question: "With the cotton field of this year in Georgia double that of last year, with the tobacco crop twice as great, with the corn crop fully a fourth more, with the sweet potato crop a great one and the peanuts nearly more in volume than last year—what's to prevent good times this fall—with plenty of debt-paying on the side?"

Mars having deliberately "cut" the earth in passing within 34,000,000 miles, the astronomers of the Lick Observatory have concluded the planet is not inhabited. They now say that the supposed "canals" being fully 100 miles wide, are too big to be man-made. They might have thought of that difficulty before, as indeed some "Missourians" did whenever the alleged canals were mentioned.

The Steuben Society, successor of the German-American Alliance, is free to swing the German-American vote to La Follette, if it can—in revenge upon both Democrats and Republicans for uniting in the war on Germany, but it will find its parent did before it, that the policies of this country can be controlled in the interests of any foreign country.

The lawn-actors down in Tallahassee hold that the inhabitants of their State are not "Floridians" but "Floridaans", citing as Latin origin of their State's name to support their view. One of the Florida editors take issue with them, as would no doubt the Canadians and Bermudians.

The British government is to spend \$5,000,000 in the transport of 3,000 English families to Canada, giving them 25 years' exemption from taxes. Evidently the unemployment problem has led to the proposal of some part of a surplus population.

Advised to vote for "the American brand of government" and to support a conservative inquiry as to which of the competing parties is the better one to such designation, and to that of course there is considerable difference of opinion.

A New York writer has protested against "this bedamned" phrase in the campaign as applied to General Davies, but when the bedamned General would make less interesting a "dame".

The grip of the Spanish world route of our "air Magellan" appears to be the beginning, and now that the production of has been practically completed, better satisfaction as well.

To fly around the earth is a wonderful achievement, but the process of flying for five to six months the commercial possibilities of globe girdling by air are still rather remote.

What American of sporting instincts was not "tickled to death" by the news from Lee Ticker?

"Good to the Last Drop"

ROMANCE lies within the circle of your cup of Maxwell House. That fragrant aroma breathes of Araby and distant sun-wrapped lands where the finest coffee is grown.

There are visions of the great ships breasting foamy miles to bring the treasure home.

There's the long, long quest for the exact blending of these fine coffees to create the flavor that is "Good to the Last Drop."

MAXWELL HOUSE Coffee

As Mild as Morning Dew!
"Impossible!" you may say, but a test will prove it a fact. A new mild and non-sickening calomel has been perfected—one that men, women and children can take with the greatest of safety. It is free from impurities that cause salivation, free from cramping, griping, drastic effects, free from all unpleasantness. It works on a new principle. The purest English calomel is combined with pepsin. The pepsin dissolves slowly and allows the calomel to be absorbed into the system without forming a strong calomel solution. That is why it cannot sicken. From your druggist. Prepared by the Pepsinated Calomel Co., Atlanta, Ga.

No Trouble To Answer Questions
(By United Press)
DALLAS, Sept. 13.—Candidates for office who weary of continuous speechmaking and other discomforts attending the search for public office, should take the advice of Paul Junkin, district passenger agent of the Texas and Pacific railroad here and employ ticket agents.

"You often hear the almost complete exhaustion of some candidate after a long speech," Junkin said.

"But take a look at the line of ticket agents in Railroad Row here. They are on their feet talking throughout the day and they get fat on it. The heat doesn't bother them and they would be poison to 'hecklers' for they develop a keen wit in answering queries of travelers that flow by their stands," Junkin said.

"There is no question about it. Any of these ticket men in Railroad Row would go great in a hot campaign," he added.

Mr. and Mrs. I. J. Elmendorff of Temple left today for their home after a pleasant visit in the home of their daughter, Mrs. R. D. Morgan.

S. M. U. BACKFIELD OF LAST YEAR BACK WITH SQUAD

DALLAS, Sept. 18.—Prospects for the Southern Methodist University football team to repeat and win another Southwest Conference championship are not very probable. Although there are several letter men on the roster at the present time, some of the most important cogs from last year's champions are missing. Every man that was in the backfield will be back to take up where they left off last season and Coach Morrison will not have any trouble with his secondary line. On the other hand Coach Freeland has much to worry about in replacing the redoubtable Brooks and the fighting Ham Payne, and he also loses one of the main cogs in that famous machine of 1923.

Although some of the veterans are not out yet on account of injuries and sickness, the team is beginning to look like an eleven, but as yet only light signal practice has been the routine. Captain Stollenwerck hasn't been out for the past three days, and it now looks as if he will not be out in time to be in condition for the first game. Reiser, all conference selection is also out of the game until after the first game with a minor operation. He has not been out on the field and probably will not be until after the Denton Normal game on September 27.

Monday and Tuesday saw the squad going through its first real work, and the Coaches finding that the men were not in very good condition will continue to put them through for the rest of the week. All of the letter men of the 1923 squad which were expected are here except King, and it is not definitely known whether or not he will be back. If King does not report to the Mustangs it will be a severe blow to the team, for with him and Reiser backing up the line and telling them where to play, a green line can be rounded into shape.

That same spirit which carried the Mustangs into every game and finally on the championship characterizes every workout, and there is no doubt that they will be the same fighting team that they were in 1923. By the time of the first game with Denton Normal, the team ought to be pretty well picked and the public will be able to get a line on the probable line up for the rest of the season.

There is no doubt that the backfield with the addition of Cortez, will make it much more powerful in plunging the line. Last year when the Mustangs needed a yard or two it was up to Walling to go get it, therefore taking away from his effectiveness on his off tackle plays and wearing him out for the defense. This year Cortez will be used to plunge the line and in stead of having to pick a hole as Walling did, should be powerful enough to force himself a yard or two.

If Freeland can develop the line, the Mustangs will have the same well balanced team that carried them through to the champion hip in the 1923 season. However the squad knows that they cannot win on what they did last year, and as a matter of fact it will be much harder this year than last. In the early part of the season last year the Mustangs were not even counted in the running, and the first conference games were picked to be defeated by at least three touchdowns by the Aggies. But instead of being the under dog this year every team is pointing to the Mustangs and they will be the ones that have to be careful and guard against over confidence.

FIRST CONSIGNMENT OF RACE HORSES QUARTERED AT STATE FAIR TRACK

Henry T. Batchler, veteran Texan horse owner with Geo. W. Clippen and Dan B. Freeman, are the first horsemen to reach the race track at the State Fair of Texas, ready for the fifteen-day meeting, Oct. 11-26.

With thirteen horses in their collection, the three well known horsemen quartered at the State Fair

HOME DRESSMAKING

By FRANCES BERLAND
(Copyright 1924 by Pan-Art Service, Inc.)

Designed in Crepe Faille

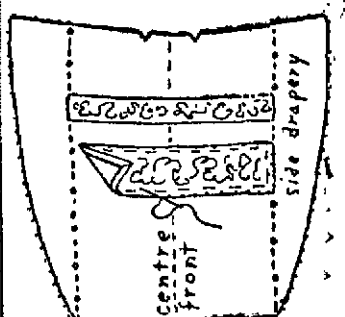

If you could see the latest afternoon frocks that the chic Parisienne is wearing, you would note this model featured among them. It is carried out in crepe faille combined with colorful embroidery.

Lovely dark blue crepe faille makes this dress—4 1/2 yards being required. It is trimmed with bands of self-

material in henna color, the bands being embroidered in blue rope silk and gilt threads. The bands are of graduated widths, the narrower ones appearing above the wider. They are used to ornament the front panel of the dress, to finish the lower edge of the flowing sleeves and to ornament the collar. The front of the dress is cut in a deep V and filled in with a vestee of self-material decorated with round buttons carved with henna petalled flowers in decorative touch.

The diagram shows how the trimming bands are applied to the front panel of the dress, before the seams are sewed at the sides. The jabot draperies have the edges plaited. Paris uses these draperies in many clever ways to vary the straight-line silhouette, for the slender tubular dress, in many cases short and narrow, is the foundation of practically all models, tunics, draperies or plaits giving the new note.

Black and white are combined in many of the most arresting Parisian creations, particularly those developed in ottoman and other ribbed silks. Green is another color which is strongly featured, shutter and

Trimming Bands Applied to Skirt Before Joining Seams

lebanon being the colors strongly accented. Side panels are repeatedly introduced because they lend height to short women, especially when the belt is omitted and the frock is molded to the figure after the very latest Paris mode for small women.

the program, entries for which close on Oct. 1.

BLACK CATS PLAY COOLIDGE HERE SEPT. 26

Coach Ernest Poteet has announced that a game has been scheduled for the High School squad for Friday, Sept. 26th., with the Coolidge aggregation. This will be the first game of the season to be played in Mexia and a good crowd is expected.

The Black Cats are coming around in good condition, the two weeks start at the Lampasas training camp is showing up, and has much to do with the present condition of the squad. Coach Poteet has been working them as hard as the weather would permit, during the few days rainy season most of the practice was confined to black-board and gym exercise. Realizing the strenuous schedule before them the thirty-one aspirants to the team are obeying the training rules with much more seriousness than in previous seasons.

The quarter position will be held down by Clover and Beason, while "Dick" Buford, well remembered from last season will hold down the full-back position. Jim Karner is getting his toe educated and more than likely will do the punting for the Cats. Kendrick and Cox of last season fame will be missed from the backfield this year, but with the removal of Perkinson from end to backfield, and filling out the remainder with new material it is believed that we will have a squad to be proud of for the 1924 season. Capt. Wayne Thompson can always be relied on in his tackle position.

Make arrangements to give the Black Cat squad your support in this opening game and show them that they have a strong backing outside of the student body.

One Cat That Did Not Come Back

(By United Press)
HENDERSON, Sept. 18.—"Anybody seen our kitty?"

Henderson cotton men have sent the call broadcast over the state. Several days ago the Henderson cotton exchange was opened and a long, lanky cat insisted on making itself at home in the office. A feast was set before the cat and straightway the price of cotton climbed.

Then the cat went on a nocturnal spree and with its disappearance the cotton market dropped. Royal feasts have been spread in the office. Silent entreaties have been made but the wanderer won't return.

TUNIC TIME IS HERE, ACCORDING TO FASHION'S CALENDAR

THE long tunic has taken by storm the citadel of public favor. In a variety of forms it appears in nearly every costume, for even if the tunic is not present in its own proper and separate identity, the dress which accompanies the ensemble coat is most often made in tunic fashion.

"It seems difficult," writes Henri Creange, director of the Cheney Style Service, from Paris, "to find a dress or even a coat or jacket without at least a tunic effect. These tunics are of different lengths, they may attain nearly the bottom of the skirt or stop at the knees, but where they stop, they always widen the silhouette with godets or pleats, while the undergarment looks straight, even when it is pleated."

The richer the fabric, the more simple the line, might be taken as a guiding maxim for the season. Especially is this true for tunics. Take, for instance, the charming example sketched, which needs no elaboration other than the beauty of the fabric—a rich cut velvet in a new oriental green called scarab, with an authentically Chinese design. The Chinese influence is also apparent in the line of the tunic, with its slashed sides, and center opening.

At the Paris openings, this note was stressed. Drecol showed tunics, split in front, back or at the sides, with small collars or fastenings on the cross, in black with multi-colored embroidery or some vivid color, while Jenny showed "many tunics, short and long; some shaped in front, with a few gathers at the side while the back is straight; some straight and very gathered in front; these are always short."

The Mexia Daily News

Is Your Wife Wiser Than You?

IF YOU read only the stock and sporting pages, and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jinkle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does?

Comfortably at home in a cushiony armchair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements—and to prepare you an appetizing dinner.

These advertisements are written for your benefit too. Read them. Help her help you save.

Buying advertised products is a bond investment—not a stock speculation

MEXIA PARTIES AND COMPANIES ACTIVE IN WEST

J. D. Wade and W. E. Bryan of Mexia, are reported as having closed what is claimed to be the largest acreage deal, in recent months in the Reagan field. The report alleges that negotiations have been closed by these parties selling to the Gulf Production Company 40 acres of Reagan county lands, composed of five, eighty acre tracts.

The J. K. Hughes Developing Company, the E. L. Smith Oil Company and Wade and Bryan are preparing to sink a joint test in the Big Lake area. According to E. L. Smith, President of the Company, the location has not yet been made but a contract to drill has been let to the Wade drilling company and the test will depend upon subsequent developments there.

The Press item from San Angelo is as follows:

The leasing by J. D. Wade and W. E. Bryan, both of Mexia, of five 80-acre tracts in blocks 58, 9 and 10, Reagan County, to one of the major oil companies, has been announced here. The name of the lessor was withheld pending final action. The price is said to make the deal the second largest in the field, eclipsed only by the leasing last Fall by the Texon Oil and Land Company of 16 sections to the Big Lake Oil Company.

Block 9 is the block in which Big Lake No. 11, largest producer in the field, is located, being in the southwest corner of section 21. The test just started last week by A. R. Goodale and associates, is in the southwest corner of section 9, block 9, while locations just announced for Big Lake Nos. 13, 14 and 15 likewise are in block 9. Block 10 adjoins 9 on the east, while block 68 is a narrow strip bordering blocks 3, 2, 9 and 10 on the north.

The 400 acres obtained by this company from Wade & Bryan are checkerboarded through territory in a general northeasterly direction from the biggest producers in the field.

Coincident with announcement of the lease by Wade & Bryan, they said that before November 15 a test for oil will be spudded somewhere in sections 5, 6, 7, or 8, block 9, jointly by the J. K. Hughes Development Company, E. L. Smith Oil Company and Wade & Bryan, all of Mexia. The money is in the bank and a contract to J. D. Wade to drill the well with a rotary has been let.

STRAIGHT TALKS WITH AUNT EMMY

ON BEING A SMALL INVESTOR

"It seems to me, Aunt Emmy," said Jane, "that it is rather silly for us to be talking about investments when all we can save is about \$500 a year after all our expenses and life insurance are paid."

"You're wrong there. If you save \$500 a year you are doing very well indeed, and remember that the insurance you speak of is in the nature of an investment itself."

"Well, I know, Aunt, but somehow investments always seem to mean dealing in lots of money, thousands and thousands of dollars. There certainly can't be many good securities which people with so little money as we have could buy."

"Indeed, there are a number of good investments for the small investor," said Aunt Emmy. "Even if you could only set aside five or ten dollars a month you can be sure of one investment that you can safely make on your own responsibility and that is putting your money in a savings bank, the safest and most conservative way of making it work for you. Even though the interest will be moderate, you will feel safe. Then there are other securities you can buy, but don't buy any before getting sound advice from some trust company or bank. These investments are real estate mortgages, industrial corporation securities, public utility corporation securities, government securities—any one of these securities may be bought on the installment plan. You may pay as little as five dollars a month for them or as much as you want to invest."

"Of course you can never be actually positive that an investment will turn out well. Human affairs are uncertain at best. When you invest money, what you really do is entrust your money to business men to use in a paying business. If your bank gives a good account of the corporation whose securities you desire to buy you are comparatively safe. But never use a cent of your capital for speculation. No matter who comes to you and tells you that a certain stock is going up, that it is a sure thing, don't speculate on it. Speculating in stocks is not for our kind. You'd never believe it, but some people who are supposed to have common sense will mortgage their homes and ruin themselves in wild speculations. The best thing for you is to buy securities on monthly payments."

"Can you do that, Aunt Emmy?" "Certainly, and if you start to do it you'll soon find that you'll be willing to do without lots of little catch-penny things for the sake of owning a nice comfortable bond."—Anne B. Ayres.

Land of Flowers Prepares for Greatest Winter Season; Millions to Be Spent By Florida East Coast Railway

ST. AUGUSTINE (Special).—What is probably the greatest constructive program planned for the East Coast of Florida since Henry M. Flagler carried out his nationally famous feat of railroad building and pushed a chain of shining rails 400 miles down the East Coast of Florida and 122 miles over the ocean to Key West is now being undertaken by the Florida East Coast Railway. The improvements planned by the line will involve an expenditure of many millions of dollars. This will be in addition to the heavy expenditures in recent years. Announcement of the great program which will mean much for the growth and development of the entire East Coast of Florida was made by General Manager H. N. Rodenbaugh of the Florida East Coast Railway.

The developments will place additional facilities at the disposal of the vast throngs who enjoy the wonderful scenic journey down the Atlantic Coast of Florida, a trip in which, for two hundred miles, beautiful vistas of the inland Waterway, fringed by palms, present every charm of the semi-tropics. It will open up a new and fast disappearing frontier in the Florida Everglades.

As a whole, the project includes double tracking the main line of the Florida East Coast Railway between Jacksonville and Miami, a distance of 386 miles. Construction is already started and thousands of men are at work.

The Florida East Coast Railway's Okeechobee branch, which extends from New Smyrna down the interior of the state of Okeechobee on Lake Okeechobee, will be continued on through the Everglades connecting with the main line near Miami. The first link will soon reach Canal Point on Lake Okeechobee, while the link to meet it will be pushed forward rapidly from the main line through Hialeah and past the big plant of the Pennsylvania Sugar Company on the Miami Canal.

A belt line around the city of Miami having a total length of about 19 miles will also be constructed for the purpose of relieving congestion and also opening up new areas for development. In addition, the Florida East Coast Railway Company will also make the largest purchase of rolling stock in its history, including 20 mountain type locomotives, some of which are of the type purchased in 1923, five switching type locomotives, 200 ventilated box cars, 250 rock cars, 100 ballast cars, and other equipment. The huge locomotives, with tenders, have each a total weight of 518,000 pounds.

Modern St. Augustine, oldest city in America, Ormond, Daytona, Seabreeze, New Smyrna, Fort Pierce, world-famous Palm Beach, Fort Lauderdale, Miami, Homestead, and the quaint and beautiful city of Key West are among the East Coast resorts which are preparing for their greatest winter season. The Florida East Coast Railway Company is encouraging an earlier and longer winter tourist season and will begin with its winter trains making through connection with the North on November 17th. Additional trains will be put on December 2nd and December 6th, so that in the principal cities of the North the traveler may be able to take the sleeper and wake up at his destination in the Land of Flowers.

Police Chief Trammel has given just such instructions to the traffic squad.

The order was inspired by the high compliment paid the local police by a man from Charlotte, N. C., recently. He got mixed up on the red and green lights, but said a big policeman, in-

stead of "bawling him out," was as polite as a basket of chips and as friendly as if he had been the Carolina man's long lost brother.

TEXAS G. O. P. CAMPAIGN IS NOW BEING PLANNED IN DALLAS

BUTTE TO MAKE STATEMENT TO PUBLIC NEXT SUNDAY

(By United Press)
DALLAS, Texas, Sept. 18.—Plans for the republican campaign, headed by Dr. George Butte of Austin, are being worked out at a conference between the nominee and state party leaders here. Dr. Butte said he would issue a statement for release in Sunday papers, outlining the issues of the campaign. "I am against the Klan," Butte said. "That has already been said for me." After the statement has been published I will talk freely about whatever the people are interested in.

Dr. Butte will manage his own campaign. A speaking tour and arrangements for a staff of speakers to assist Butte are being worked out.

The conference is scheduled to last two days.

Butte has been in conference at the capitol during the early part of the week with R. B. Creager, Texas republican national committeeman; Charlie A. Boynton of Waco, acting chairman of the State Republican Executive committee and other leaders. One of the first tasks of the conference here, according to Clinton S. Bailey, state director of the republican organization, will be the selection of a campaign manager for Butte.

Rotary Takes Up Loan Fund Today

The Mexia Rotary club met in regular weekly luncheon at the top cafe at noon Thursday. The hour had been designated as one in which a special effort would be made to raise funds for the Rotary School Loan, special appeals having been made by J. Sanford Smith, Chairman of the Loan Committee.

The meeting was called to order by President Hardy Eubanks. Following introduction of visitors and an expression of condolence to Rotarian A. R. Etchison upon the death of his father recently at Waco, the gavel was turned over to Mayor Ernest Watson who was in charge of the program. The committee in charge of the program for the day was composed of Jack Womack, Judge W. M. White and Mayor Watson. It was announced that Mr. Womack was on the sick list today and Judge White was at Groesbeck. In view of their absence the Mayor, cooperating in the move to observe Constitution week over the country called on A. Garland Adair and W. S. Banks to discuss the Constitution. This they did in brief, Mr. Banks using the opportunity to stress upon Rotarians the benefits and pleasures from living up to the spirit of Rotary as expressed in the motto. Both urged that zealous efforts be made to make the Rotary Loan fund a success and stressed the importance of action now. Slips were passed for all Rotarians to sign to show how much they were to invest in the fund. The amount of the fund raised will be announced as soon as all Rotarians submit their statement.

Gabe Gazell, known in Mexia as the song bird of Mexia, was present and was called upon to sing a song. He responded by stating that he never sang solos but led in a lively singsong that put all the birds in cages and out in the meeting place a singing.

LONDON, Sept. 18.—A fleet of Gen. Chang Tso Lin's airplanes early today started bombing the Chi Li army post of Shang Hsi Kawan, according to a dispatch to the Central News. The attack was an attempt to blow up the Pekin Railroad but it is reported that the damages were not heavy.

Giants Unworried Near End of Race

By JOHN J. MCGRAW
(Manager of the New York Giants)
(Copyright 1924 by United Press)
NEW YORK, Sept. 18.—While I do not care to make rash statements or predictions, I can voice my opinion about the National League pennant race by saying that the Giants are letting the other fellows do the worrying. I have had confidence in my team since the season started and there is no reason to waver now.

The Giants are an experienced ball club. They have been through places just as tight in the past three years and they survived because they were able to recover after every slump.

It is something for a ball club to keep its head up and its feet steady in a slump when a rival team is charging through the league like the Brooklyn team was. But the Giants did that and they played their game ball when the situation was most serious.

The Giants have more of a real punch, a punch in a crisis than the Robins or the Pirates and it is largely due to the ability of one or two players to deliver in a pinch that we have been able to keep going.

The Giant pitchers are working better now and they should improve in the final two weeks of the pennant race.

It is natural that players should be under such a suspension when they turn into the final drive in such a close pennant race. Experience counts then and it did this year with the Giants. They have been in slumps but they never have been in a panic or in danger of blowing up. They have all been confident and of course, that made me confident in them.

War Is Declared On Chang Tso Lin

(By United Press)
PEKIN, Sept. 18.—A presidential mandate issued by Esao Kun today formally declared war against Chang Tso Lin, Manchurian war lord, whose forces are engaging Chi Li troops north of the capital.

Chang declared war against the Pekin government last week. Wu Pei Fu, most powerful leader of the Chi Li faction, was appointed generalissimo to conduct an immediate punitive campaign against Chang.

WORLD AVIATORS LAND AT NOON AT ST. JO

(By United Press)
ROSCRANS, Flying Field, St. Joe, Mo., Sept. 18.—The world flyers landed here at 12:29 this afternoon, and after a brief stop planned to hop off for Muskogee, Oklahoma, where they will spend the night. Ten thousand people greeted the flyers.

FORT CROOK FLYING FIELD, Omaha, Sept. 18.—More than one hour and a half behind schedule time the army round the world flyers left here for St. Joseph, Mo., at 10:30 this morning. Cloudy, misty weather delayed the start. The flyers planned to reach the next landing at 1 o'clock for lunch.

At 8 a. m. the sun broke through the clouds and mist. At this hour Lieut. Smith announced that the flight could be made but that the start would be delayed probably an hour. Reports from the south also indicated that the weather is clearing and good flying weather is expected later in the day.

OMAHA, Neb., Sept. 18.—The skies were overcast and visibility poor two hours before the army globe girding airmen were scheduled to "hop off" for Muskogee, Okla., at 9 a. m. Unless weather conditions improve or reports from St. Joseph show clearer weather in that vicinity the flight probably will be delayed, officers at Fort Crook flying field believed.

Lieuts. Smith, Nelson and Wade plan to leave Omaha for St. Joseph at 9 a. m.

Only a short stop is scheduled for the Missouri city and then the flyers take off for Muskogee, Ok. They plan to circle over Kansas City and other larger cities on the route.

Chinese Republicans Victorious Over Kan

(By United Press)
SHANGHAI, Sept. 18.—American Marines and other international troops mobilized for defense of their countrymen in the foreign settlements here tonight, with a panicky rush from the war zone expected momentarily.

Chekkiang forces were routed and the victorious republican troops broke through the line and advanced on the city after a crushing blow was delivered early today.

General Hsiang's ally, General Kan, surrendered with all of his troops, to the republican commander.

The remaining resisting Chekkiang forces are surrounded and their surrender is expected momentarily.

Texas—Unsettled, scattered showers.

AN IMPORTANT CALL TO SERVICE!

No more important meeting has been called in Mexia for several years than that scheduled at the Mexia Public Library for Friday afternoon, when plans are to be perfected for entertaining the Texas Synod of the Presbyterian Church, U. S. A., which meets in Mexia November 8-13.

Men and women from all denominations are urged to come to the help of their neighbors and fellow citizens in this instance. The Synod will do much in the southwest to correct the impression made when martial law was declared here, the history of which was partially told and with much damage by politicians in the recent gubernatorial campaign. Visiting delegates, ministers and laymen alike, will be agreeably pleased when they arrive, if they are met with a glad hand instead of by the hi-jacker whom they long had heard was so numerous here. They will be pleasantly surprised when they step off the train and find paved streets, handsome churches and fine school buildings and imposing store build-

ROW CONTINUES ALL NIGHT LONG IN LEAGUE MEET

(By United Press)
HOUSTON, Texas, Sept. 18.—Police and deputy sheriffs were called out here early this morning to settle a row which threatens to split the headquarters of the "League of Protestant Women." Attempts on the part of one faction to oust two national officers is believed to have caused the row which lasted from midnight until dawn.

GRUESOME WORK RECOVERING BODIES IS NEAR END

(By United Press)
KEMMERER, Wyo., Sept. 18.—The last of the bodies of 35 miners who perished in the explosion in Sublet mine No. 5 of the Kemmerer Coal Company Monday noon will be removed today, officials believed.

Bodies of 31 victims now lie in morgues here. Rescue workers said that four others had been located in the mine but there would be some difficulty getting them to the surface through the debris caused from the explosion.

Only 12 men escaped alive.

39 Miners Taken From Death Mine

MEMMERER, Wyo., Sept. 18.—The bodies of 39 miners have been recovered from mine number 5 of the Kemmerer Coal Company, wrecked by a blast Monday. Twelve bodies had previously been recovered. Fifty-one men are known to have been in the mine, officials said.

DETROIT TIGERS PRACTICALLY BEATEN IN AMERICAN

By HENRY L. FARRELL
(United Press Staff Correspondent)
NEW YORK, Sept. 18.—Taking an other unexpected licking from the feeble Philadelphia Athletics, the Detroit Tigers practically have passed out of the American League pennant race.

Keeping up a season of long inconsistency, the Tigers have failed to hold their stride in the soft places and their chances to get into the world's series have just about gone.

The Tigers have nine more games to play. If they should happen to win all nine of them, something that is not probable, the leading Yankees and Senators would have to win only five out of their remaining 11 games to finish ahead of them.

The Yankees took advantage of an opportunity yesterday and worked their way back into a tie with the Washington Senators for first place in the American League race. The champions took a double header from the St. Louis Browns while the Senators were disposing of the Cleveland Indians in one game. The Yankees and Senators have won and lost the same number of games which makes the situation more complicated than it is in the National League. Neither the champions nor young Buck Harris' club are cracking under the terrific strain and it looks like a battle right up to the wire.

Bad weather kept all the National League teams idle yesterday and there was no change in the standings.

The Pittsburgh Pirates, in rather a precarious condition, will start tomorrow in the battle for their lives. They go into a three game series against the Brooklyn Robins and then cross the bridge for three games with the Giants. The National League pennant may be decided before the six games are finished.

Thirteen Hundred Rebels Are Killed By India Royalists

White Slavers Get The Money Nightmare Says

(By United Press)
NEW YORK, Sept. 18.—A girl who talked in her sleep gave a clue which resulted in the arrest of James Nelson and Peter Kelley in Brooklyn and a confession they had gained more than \$10,000 through white slave activities in the Metropolitan area since June.

Police also held two girls, Helen Nelson, 23, a strikingly pretty brunette, and May Smith, 22, formerly of Hartford, Conn.

The Smith girl, on a recent visit to a sister in New Rochelle had a nightmare in which she told of her life. The sister notified Brooklyn police and the arrest followed.

CLARENCE LOVELESS IS WEDDED TO RUTH LOVING

(By International News Service.)
AMARILLO, Texas, Sept. 18.—"Loving-Loveless Wedding" read the caption on the society page of an afternoon newspaper here. "Quite common," remarked a reader, but the item revealed that Miss Ruth Loving had taken for her husband Clarence Loveless. Not inappropriate that a loveless young man should take a loving bride.

WHEELER FIGHTS DAUGHERTY GANG

By PAUL R. MALLON
(United Press Staff Correspondent)
TOLEDO, Ohio, Sept. 18.—Fighting the "Daugherty system and the Ohio gang," Senator Burton K. Wheeler, independent vice presidential candidate moved toward Columbus today, expecting recriminating action against himself by Daugherty's friends before night.

Further information is claimed to have been received by him indicating that upon his arrival in Columbus this afternoon he might be served with papers making him a defendant in a suit for damages.

The case is reported to be an outgrowth of the automobile accident in Butte, Mont., five years ago when while riding in the car of a friend a smash up occurred in which a person was injured. Wheeler believes the suit will be instituted in an attempt to intimidate him against attacking "the Daugherty gang," he says.

Wheeler intends to combine his attacks in this state upon Daugherty and the present system of the United States Supreme Court. Here in Ohio for 12 years there has been a new State Constitution which prevents the Supreme Court from overruling any act of the legislature unless six of the seven members of the court favor it. This is precisely the same proposal sponsored by La Follette for the nation.

"Ohio would not now have its workmen's compensation laws if this were not the case," Wheeler claims. "Five of the state supreme judges desired to kill that law, desired to hold it unconstitutional. The two others by refusing to join in this attempt to override the legislature, saved that law for the people."

"For twelve years Ohio has had this safeguard against judicial tyranny. And yet Ohio is not held up to the rest of the country as an un-American state."

In speeches at Cleveland where Wheeler was given a bigger audience than he has had heretofore two facts show the spirit of his followers were reported to him.

The scrub women of Cleveland applied to join the local La Follette-Wheeler club but were informed that the initiation fee is \$1 and could not be dispensed with. Half of the women paid 50 cents down and the other half promised to make an installment upon their initiation fee on the next payday.

New Mexico Editor Wins First Contest In State Meeting

(By United Press)
SANTA FE, New Mexico, Sept. 18.—Backers of Carl C. Magee, candidate for the Democratic nomination United States senator won their skirmish of the State Convention when a motion to give the Senate nomination precedence over the balling for governor carried by a 2 to 1 vote.

The motion was introduced by Swope, mayor of Albuquerque, leader of the Magee forces. Its passage was regarded as a distinct expression of the convention in Magee's favor.

Magee is editor of the New Mexico Tribune, a Scripps-Horn newspaper, now out of jail on bond pending a court decision as to whether the governor of the state can pardon him after his conviction charges of criminally libelling court of Judge D. H. Leahy.

Bank Probe Is Begun In K.

(By United Press)
KANSAS CITY, Mo., Sept. 18.—Investigation of deals alleged have contributed to the \$4,000,000 loss of the old Commonwealth National Bank here was to get underway in Federal Court here following indictment of L. C. Smith, former President of the bank, and brother, Granville M. Smith, former chairman of the bank's board of directors.

The brothers were expected to appear voluntarily in court for arraignment. A Federal grand jury indicted them, with two others whose names were not given, at St. Joseph yesterday.

Unsecured loans to cattlemen were said to be the basis of some of the indictments.

Granville Smith was a partner in the Smith-Ricker Cattle loan concern which crashed here during the cattle price deflation in 1920, resulting in a loss to creditors and bank of nearly \$7,000,000.

Dawes Hotels To House Needy Ones Maintained in Chicago and Boston In Memory of His Son and Mother

GEN. CHARLES G. DAWES

THE RUFUS F. DAWES HOTEL FOR DESTITUTE MEN, CHICAGO.

A rugged exterior often conceals in a man the finest of sympathy and gentleness. It was not until he had been nominated for the Vice-presidency that the numerous benefactions sponsored by General Charles G. Dawes were revealed and then the disclosure was made by others than the candidate himself. This picturesque army officer, known to the average American chiefly for the spectacular services he has performed as an adviser to the allied governments in the discussion of reparations, has for years, without ostentation, been ministering to that most completely forgotten figure in human life—the down-and-out, destitute willing-to-work man.

There stands a hotel in Chicago which, while it is not large, is comfortable. Its rates are so cheap as to be almost nothing. The service is given by its attaches as conscientiously as though it were the finest in the city. There is no charitable atmosphere to embarrass the jobless and disheartened who patronize it.

It is the Rufus F. Dawes Hotel for Destitute Men, named by the General for Rufus Fearing Dawes, his 21 year old son who drowned at Lake Geneva in September, 1912. Between the father and son there had been so deep an affection that they were held up as ideal examples of that relationship. It was his desire to erect a memorial worthy of the youth of whom he said:

"The truly great character must unite unusual strength and determination with gentleness. My boy was imperious. He recognized no superior on earth, and yet was the tender and intimate friend of the weak and humble."

Thus the Rufus F. Dawes Hotel came into being, financed by the General and operating under a code framed by him.

Soon after the Chicago hotel opened a similar institution was begun in Boston and it has proved as valuable to the community as the forerunner.

Then General Dawes paid a profound tribute to his mother. He determined that there should be a similar hotel for women in Chicago, and when it had been erected he named it for her—the Mary Dawes Hotel. Here also charity operates without its label and the struggling working woman may find a haven of home atmosphere.

THE COATS ARE RICH IN LUXURIOUS FUR TRIMMINGS!

Dame Fashion has decreed that the coat must be fur trimmed for Winter '24 and here you will find an immense assortment of the season's smart styles with fur trimmings. Some have only the fur collars—others have the collar of fur and fur band around sleeve—some have collar of fur—sleeve band of fur, and band of fur around the bottom of coat—and still others have the collar of fur—fur sleeve trimming—and entire front lapel of coat trimmed in fur.

And the fur lends that refined air that makes the Coat.

The furs most used this season are Beaver, Jap Mink, Squirrel, and Muskrat.

---As To Prices

As to prices—you will find our Coats attractively priced—and we show a complete line at all price ranges, from \$17.50 and up to \$95.00. And whatever price in between, you may wish to pay for your coat, you will find a model to suit you here.

"For Mexia, I Will"

HARD WORK AFTER FORTY

From time out of mind we have been taught that the early bird gets the worm and that success is attained only by those who work harder and longer than their fellows. Now comes Dr. Raymond Pearl of Johns Hopkins with a pile of statistics to show that there is danger in hard work. Although up to the age of forty it does not appear to injure a man of normal health, hereafter, Dr. Pearl finds, those in strenuous occupations have a higher death rate than men whose work is sedentary. The death rate of the outdoor worker is, in general, less than the indoor worker after forty; but coal-heavers, longshoremen and the like "die young," and the greater the age the greater is the death rate. For persons from 55 to 64 it is 24.8 per cent. more for men doing hard manual labor than for men in callings not requiring physical exertion.

The comment indicates that this is regarded as a new discovery, yet it has long been known that physical vigor gradually fails after middle life and that it is unwise to overtax declining strength. Experience has also taught that even mental application should be more moderate after middle life. Like any inanimate machine both the human body and brain must gradually wear out, or become less and less capable of long-sustained effort—an inescapable decline which every foresighted man will provide for as best he can. What is unexpected in Dr. Pearl's showing is the fixing of the beginning of failing powers as early as forty, when the average man has been supposed to enjoy his fullest prime. He recalls Dr. Osler's alleged dictum that men are "done for" after passing forty and might as well be chloroformed.

The Savannah News indirectly announces local prosperity by means of this rather long wined question: "With the cotton field of this year in Georgia double that of last year, with the tobacco crop twice as great, with the corn crop fully a fourth more, with the sweet potato crop a great one and the peanuts vastly more in volume than last year—what's to prevent good times this fall—with plenty of debt-paying on the side?"

Mars having deliberately "cut" the earth in passing within 34,000,000 miles, the astronomers of the Lick Observatory have concluded the planet is not inhabited. They now say that the supposed "canals" being fully 100 miles wide, are too big to be man made. They might have thought of that difficulty before, as indeed some "Missourians" did whenever the alleged canals were mentioned.

The Steuben Society, successor of the German-American Alliance, is free to swing the German-American vote to La Follette, if it can—in revenge upon both Democrats and Republicans for uniting in the war on Germany, but it will find, as its parent did before it, that the policies of this country can not be controlled in the interests of any foreign country.

The lawmakers down in Tallahassee hold that the inhabitants of their State are not "Floridians" but "Floridaans," citing the Latin origin of their State's name to support their view. Some of the Florida editors take issue with them, as would no doubt the Canadians and Bermudians.

The British government is to spend \$5,600,000 in the transport of 3,000 English families to Canada, giving them 25 years' credit to pay back. Evidently the unemployment problem is loudly for the disposal of some part of a surplus population.

Advice to vote for "the American brand of government" naturally produces responsive inquiry as to which of the contending tickets has the largest claim to such designation, and to this of course there is considerable difference of opinion.

A New York pulpit has protested against "this 'bedamed' warfare in the newspapers credited to General Dawes," but without his "bedamns" the General would make less interesting "copy."

That map of the round-the-world route of our "air Magellan" appeals to the imagination, and now that the prodigious feat has been practically completed, begets satisfaction as well.

To fly around the earth is a wonderful achievement, but with the process calling for five to six months the commercial possibilities of globe girding by air are still rather remote.

What American of sporting instincts was not "tickled to death" by the news from Ice Tickle?

As Mild as Morning Dew!

"Impossible!" you may say, but a test will prove it a fact. A new mild and non-sickening calomel has been perfected—one that men, women and children can take with the greatest of safety. It is free from impurities that cause salivation, free from cramping, griping, drastic effects, free from all unpleasantness. It works on a new principle. The purest English calomel is combined with pepsin. The pepsin dissolves slowly and allows the calomel to be absorbed into the system without forming a strong calomel solution. That is why it cannot sicken. From your druggist. Prepared by the Pepsinated Calomel Co., Atlanta, Ga.

DAVIS TO SPEAK TO FARMERS OF IOWA ABOUT TARIFF

(By United Press)

EN ROUTE WITH JOHN W. DAVIS to DES MOINES, Sept. 17.—A new John W. Davis was swinging through Iowa today on the last lap of his first invasion of the West. In the two and half weeks Davis has spent in the West his advisers on the trip have seen him change from a retiring lawyer reluctantly facing his audiences into a militant crusader with a message.

When he speaks to the Iowa farmers tonight on tariff and taxation, Democratic leaders say that he will put even more vigor into his utterances than he did in Buncheon, Mo., where the enthusiasm of the monster meeting seemed to inspire him with a new confidence.

"The West has acted like a tonic on Davis," said Representative Cordell Hull of Tennessee, former chairman of the Democratic National Committee, who is accompanying Davis on the trip.

"I have never seen such a change come over a man in so short a time. Frankly, when Davis left New York he felt that he was leading a forlorn hope. But he carried on like a good soldier shouldering the responsibilities that had been thrust upon him by his party."

"Since coming West and getting in contact with the people Davis has grown daily in enthusiasm until today he is a militant crusader for the cause of honest government with an abiding confidence of victory."

"I have watched Davis in all his speeches. It has been amazing study in psychology. In every speech his tone has grown bolder and more confident. He no longer says, 'if I am elected President,' he says 'I will be elected.'"

Davis has a busy day before him in Des Moines. Immediately upon his arrival he will go to his hotel where he will confer with state leaders. He is scheduled to make a brief speech at a luncheon and his main speech at night in the city auditorium.

Mexians To Have New Train Service To San Francisco

E. P. Huchingson, local agent for the Southern Pacific lines, calls the attention of the Mexia public to a new passenger train to be operated between New Orleans and San Francisco known as the Sunset Limited. The trains are number 101 and 102 and the date of the first run is to be announced within a few days.

Mr. Huchingson says that Mexia folks may make connections with the new trains either at Houston or San Antonio. Those contemplating a trip to San Francisco may leave here on the noon train, reach San Antonio in the afternoon of the date leaving, board a sleeper at San Antonio at 9:00 o'clock and be picked up when the limited reaches the yards of that city.

A description of the trains is given as follows:

The equipment of the passengers is given as follows:

The equipment of the passengers indicates that they will be new from pilot to tail light, with every modern convenience that will satisfy the most exacting.

The sleeping cars will be the last word in luxurians and appointments, containing in addition to drawing rooms and compartments the usual number of connections.

The observation car will contain drawing room and a retiring room and bath for the ladies, a ladies maid, deft as manicurist and hairdresser.

There will be a large roomy club car containing bath for men and a barber shop with a competent barber and valet in charge.

The dining cars will be of the very latest design, large, well ventilated and with a capacity of seating 30 persons.

Only slight changes are contemplated in the schedules, leaving and arriving time at New Orleans, Houston, San Antonio, El Paso and San Francisco.

All troops of the Mexia Boys Scouts will meet at their respective places Friday night. With the opening of school, local Scoutmasters are expecting the scouts to continue their work and thus become better students, says Z. Rochelle, one of the leaders of the boys of this place.

According to reports from England, Lord Northcliffe has entered the ranks of those who talk, although dead. Louise Owen, former confidential secretary to the famous publisher, says she has received messages from him. Quite a surprise was given American polo circles when Viscount Wimborne, who has furnished heavy backing for the English polo team, called for England before the first of the international matches was played. General John L. Hines has succeeded General John J. Pershing as commander of the United States Army.

THOUSANDS RUSH TELEGRAMS TO HELP SAVE POOR BOY

CHICAGO, Sept. 17.—Thousands of persons from all walks of life are signing the pardon petition for Bernard Grant, 19, under sentence of death in connection with murder, Attorney Thomas E. Swanson, in charge of the fight to secure mercy for the poverty stricken boy, announced today.

More than a dozen women's clubs have taken up the fight, Swanson said. A mass meeting of heads of these clubs was called in Swanson's office for today to adopt resolutions condemning interpretation of the law to favor the rich.

"They all agree that if Nathan Leopold and Richard Loeb, sons of millionaires, are too young to hang, then Grant, who is of the same age, but poor, very poor, is too young to hang," Swanson said.

Swan today formally invited Clarence Darrow, who saved Leopold and Loeb from the gallows for their murder of Bobby Franks, to assist in saving Grant. Darrow, through the United Press yesterday announced he would take a hand in the fight on his return from his vacation at the Loeb summer home at Charlevoix, Mich.

A telegram sent by Swanson to Darrow follows:

"Your telephone message about the Grant case was received at my office during the Leopold-Loeb trial. I considered you too much occupied

then for a conference. Dispatches quote you as saying you would be glad to assist in the Grant case but that your services had not been requested. There is a standing request for your aid in every case where oppressed humanity cries out because of injustice. I welcome your assistance in this case in behalf of justice and humanity and shall withhold mailing the petition to the Governor until I hear from you."

Swanson said he expected to have 25,000 residents of Chicago and Cook county sign the petition. Mayor Dever of Chicago has sent a pardon resolution to the council asking that it be adopted and sent to Governor Small.

ROTARY STUDENTS FUND.

Following the recent visit by District Governor Harry Rogers to the Mexia Rotary club, J. Sandford Smith wrote the following letter to every member regarding the students loan fund, which is given here for the information it carries of interest to the public:

FELLOW ROTARIANS:

Those of you who had the pleasure of hearing the address of our distinguished District Governor, Harry Rogers, doubtless got a thrill of enthusiasm and a broader vision of what your membership in "Rotary" really means and will be in a more receptive mood now to respond liberally to our Students' Loan Fund.

Never in my whole life have I had an address to take hold of me more firmly and soak in deeper than did that of our able District Governor. Were you among the unfortunates who missed it, you did, indeed, miss a rare treat. His thoughts throughout the whole discourse were an inspiration to me, and I am sure what he brought to us will be the means of bringing about new resolutions and a

desire to accomplish greater things in our Club.

One of our Fellows, who had previously sent in a check for \$25.00 on the Students' Loan Fund, augmented this by sending in another for \$50.00, making his total contribution to the Fund \$75.00.

Our Students' Loan Fund is separate and apart from the Club's general budget and whatever amount is placed in the Fund by you will be carefully guarded and invested judiciously by your loan Committee, remaining as an investment by you so long as the Fund is maintained. Should the Students' Loan Fund cease to function—you will be reimbursed in proportion to whatever amount you have contributed.

It is your Committee's earnest desire to have the Mexia Rotary Club create a fund sufficiently large to enable it to assist in the education of many of our worthy boys and girls who would be unable to obtain a higher education otherwise.

If you do not feel that you can contribute a large amount to the Fund, do all that you can, and I am sure you will be repaid four-fold for your

investment.

Yours Rotarily,
J. SANDFORD SMITH,
Chairman Students' Loan Fund.

Choir practice will be held in practically all local churches tonight. All members of the respective choirs are urged to be present.

S. M. U. BACKFIELD OF LAST YEAR BACK WITH SQUAD

DALLAS, Sept. 18.—Prospects for the Southern Methodist University football team to repeat and win another Southwest Conference championship are not very probable. Although there are several letter men on the roster at the present time, some of the most important cogs from last year's champions are missing. Every man that was in the backfield will be back to take up where they left off last season and Coach Morrison will not have any trouble with his secondary line. On the other hand Coach Freeland has much to worry about in replacing the redoubtable Brooks and the fighting Ham Payne, and he also loses one of the main cogs in that famous machine of 1923.

Although some of the veterans are not out yet on account of injuries and sickness, the team is beginning to look like an eleven, but as yet only light signal practice has been the routine. Captain Stollenwerck hasn't been out for the past three days, and it now looks as if he will not be out in time to be in condition for the first game. Reiser, all conference selection is also out of the game until after the first game with a minor operation. He has not been out on the field and probably will not be until after the Denton Normal game on September 27.

Monday and Tuesday saw the squad going through its first real work, and the Coaches finding that the men were not in very good condition will continue to put them through for the rest of the week. All of the letter men of the 1923 squad which were expected are here except King, and it is not definitely known whether or not he will be back. If King does not report to the Mustangs it will be a severe blow to the team, for with him and Reiser backing up the line and telling them where to play, a green line can be rounded into shape.

That same spirit which carried the Mustangs into every game and finally on the championship characterizes every workout, and there is no doubt that they will be the same fighting team that they were in 1923. By the time of the first game with Denton Normal, the team ought to be pretty well picked and the public will be able to get a line on the probable line up for the rest of the season.

There is no doubt that the backfield with the addition of Cortmeglia will make it much more powerful in plunging the line. Last year when the Mustangs needed a yard or two it was up to Walling to go get it, therefore taking away from his effectiveness on his off tackle plays and wearing him out for the defense. This year Cortmeglia can be used to plunge the line and instead of having to pick a hole as Walling did, should be powerful enough to force himself a yard or two.

If Freeland can develop the line, the Mustangs will have the same well balanced team that carried them through to the championship in the 1923 season. However the squad knows that they cannot win on what they did last year, and as a matter of fact it will be much harder this year than last. In the early part of the season last year the Mustangs were not even counted in the running, and the first conference games were picked to be defeated by at least three touchdowns by the Aggies. But instead of being the under dog this year every team is pointing to the Mustangs and they will be the ones that have to be careful and guard against over confidence.

A Very Lovely Dress

Designed in Crepe Faille

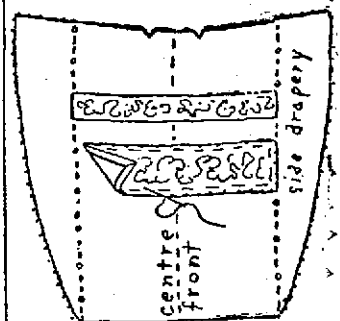

If you could see the latest afternoon frocks that the chic Parisienne is wearing, you would note this model featured among them. It is carried out in crepe faille combined with colorful embroidery.

Lovely dark blue crepe faille makes this dress—4½ yards being required. It is trimmed with bands of self-

material in henna color, the bands being embroidered in blue rope silk and gilt threads. The bands are of graduated widths, the narrower ones appearing above the wider. They are used to ornament the front panel of the dress, to finish the lower edges of the flowing sleeves and to ornament the collar. The front of the dress is cut in a deep V and filled in with a vertice of self-material decorated with round buttons carved with henna petalled flowers in decorative touch.

The diagram shows how the trimming bands are applied to the front panel of the dress, before the seams are sewed at the sides. The jacket draperies have the edges picoté. Paris uses these draperies in many clever ways to vary the straight-line silhouette, for the slender tubular dress, in many cases short and narrow, is the foundation of practically all models, tunics, draperies or plaits giving the new note.

Black and white are combined in many of the most arresting Paris creations, particularly those developed in ottoman and other ribbed silks. Green is another color which is strongly featured, shutter and

Reservations have already been made for more than a hundred stalls at the State Fair track. One shipment of a dozen horses will come all the way from Winnipeg. Two owners, one with fourteen and another with twelve animals, will come in from Omaha. Dr. A. E. BLACK CATS PLAY COOLIDGE HERE SEPT. 26

Coach Ernest Potet has announced that a game has been scheduled for the High School squad for Friday, Sept. 26th, with the Coolidge aggregation. This will be the first game of the season to be played in Mexia and a good crowd is expected.

The Black Cats are coming around in good condition, the two weeks start at the Lampasas training camp is showing up, and has much to do with the present condition of the squad. Coach Potet has been working them as hard as the weather would permit, during the few days rainy season most of the practice was confined to blackboard and gym exercise. Realizing the strenuous schedule before them the thirty-one aspirants to the team are obeying the training rules with much more seriousness than in previous seasons.

The quarter position will be held down by Clover and Beason, while "Dick" Buford, well remembered from last season will hold down the full-back position. Jim Karner is getting his toe educated and more than likely will do the punting for the Cats. Kendrick and Cox of last season fame will be missed from the backfield this year, but with the removal of Perkins from end to backfield, and filling out the remainder with new material it is believed that we will have a squad to be proud of for the 1924 season. Capt. Wayne Thompson can always be relied on in his tackle position.

Make arrangements to give the Black Cat squad your support in this opening game and show them that they have a strong backing outside of the student body.

One Cat That Did Not Come Back

(By United Press)

HENDERSON, Sept. 18.—"Anybody seen our kitty?"

Henderson cotton men have sent the call broadcast over the state. Several days ago the Henderson cotton exchange was opened and a long, lanky cat insisted on making itself at home in the office. A feast was set before the cat and straightway the price of cotton climbed.

Then the cat went on a nocturnal spree and with its disappearance the cotton market dropped. Royal feasts have been spread in the office. Silent entreaties have been made but the wanderer won't return.

BAD AUTO WRECK.

Dr. Anderson was called to Mustang Wednesday night to treat two men who were severely injured when their car collided with a large truck from Waco. Their car, a large sedan, was badly wrecked by the impact, which indicated that it was traveling at a high rate of speed. The truck was stopped in the effort to avoid the

TUNIC TIME IS HERE, ACCORDING TO FASHION'S CALENDAR

THE long tunic has taken by storm the citadel of public favor. In a variety of forms it appears in nearly every costume, for even if the tunic is not present in its own proper and separate identity, the dress which accompanies the ensemble coat is most often made in tunic fashion. "It seems difficult," writes Henri Creange, director of the Cheney Style Service, from Paris, "to find a dress or even a coat or jacket without at least a tunic effect. These tunics are of different lengths, they may attain nearly the bottom of the skirt or stop at the knees, but where they stop, they always widen the silhouette with godets or pleats, while the underskirt looks straight, even when it is pleated." The richer the fabric, the more simple the line, might be taken as a guiding maxim for the season. Especially is this true for tunics. Take, for instance, the charming example sketched, which needs no elaboration other than the beauty of the fabric—a rich cut velvet in a new oriental green called scarab, with an authentically Chinese design. The Chinese influence is also apparent in the line of the tunic, with its slashed sides, and center opening. At the Paris openings, this note was stressed. Drecoll showed tunics, split in front, back or at the sides, with small collars or fastenings on the cross, in black with multi-colored embroidery or some vivid color, while Jenny showed "many tunics, short and long; some shaped in front, with a few gathers at the side while the back is straight; some straight and very gathered in front; these are always short."

Is Your Wife Wiser Than You?

IF YOU read only the stock and sporting pages, and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jinkle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does?

Comfortably at home in a cushiony armchair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements—and to prepare you an appetizing dinner.

These advertisements are written for your benefit too. Read them. Help her help you save.

MEXIA PARTIES AND COMPANIES ACTIVE IN WEST

J. D. Wade and W. E. Bryan of Mexia, are reported as having closed what is acclaimed to be the largest acreage deal, in recent months in the Reagan field. The report alleges that negotiations have been closed by these parties selling to the Gulf Production Company 40 acres of Reagan county lands, composed of five, eighty acre tracts.

The J. K. Hughes Developing Company, The E. L. Smith Oil Company and Wade and Bryan are preparing to sink a joint test in the Big Lake area. According to E. L. Smith, President of the Company, the location has not yet been made but a contract to drill has been let to the Wade drilling company and the test will depend upon subsequent developments there.

The Press item from San Angelo is as follows:

The leasing by J. D. Wade and W. E. Bryan, both of Mexia, of five 80-acre tracts in blocks 58, 9 and 10, Reagan County, to one of the major oil companies, has been announced here. The name of the lessor was withheld pending final action. The price is said to make the deal the second largest in the field, eclipsed only by the leasing last Fall by the Texon Oil and Land Company of 16 sections to the Big Lake Oil Company.

Block 9 is the block in which Big Lake No. 11, largest producer in the field, is located, being in the southwest corner of section 24. The test just started last week by A. R. Goodale and associates, is in the southwest corner of section 9, block 9, while locations just announced for Big Lake Nos. 13, 14 and 15 likewise are in block 9. Block 10 adjoins 9 on the east, while block 58 is a narrow strip bordering blocks 3, 2, 9 and 10 on the north.

The 400 acres obtained by this company from Wade & Bryan are checkerboarded through territory in a general northeasterly direction from the highest producers in the field.

Coincident with announcement of the lease by Wade & Bryan, they said that before November 15 a test for oil will be spudded somewhere in sections 5, 6, 7, or 8, block 9, jointly by the J. K. Hughes Development Company, E. L. Smith Oil Company and Wade & Bryan, all of Mexia. The money is in the bank and a contract to J. D. Wade to drill the well with a rotary has been let.

STRAIGHT TALKS WITH AUNT EMMY

ON BEING A SMALL INVESTOR

"It seems to me, Aunt Emmy," said Jane, "that it is rather silly for us to be talking about investments when all we can save is about \$500 a year after all our expenses and life insurance are paid."

"You're wrong there. If you save \$500 a year you are doing very well indeed, and remember that the insurance you speak of is in the nature of an investment itself."

"Well, I know, Aunt, but somehow investments always seem to mean dealing in lots of money, thousands and thousands of dollars. There certainly can't be many good securities which people with so little money as we have could buy."

"Indeed, there are a number of good investments for the small investor," said Aunt Emmy. "Even if you could only set aside five or ten dollars a month you can be sure of one investment that you can safely make on your own responsibility and that is putting your money in a savings bank, the safest and most conservative way of making it work for you. Even though the interest will be moderate, you will feel safe. Then there are other securities you can buy, but don't buy any before getting sound advice from some trust company or bank. These investments are real estate mortgages, industrial corporation securities, public utility corporation securities, government securities—any one of these securities may be bought on the installment plan. You may pay as little as five dollars a month for them or as much as you want to invest."

"Of course you can never be actually positive that an investment will turn out well. Human affairs are uncertain at best. When you invest money, what you really do is entrust your money to business men to use in a paying business. If your bank gives a good account of the corporation whose securities you desire to buy you are comparatively safe. But never use a cent of your capital for speculation. No matter who comes to you and tells you that a certain stock is going up, that it is a sure thing, don't speculate on it. Speculating in stocks is not for our kind. You'd never believe it, but some people who are supposed to have common sense will mortgage their homes and ruin themselves in wild speculations. The best thing for you is to buy securities on monthly payments."

"Can you do that, Aunt Emmy?"
"Certainly, and if you start to do it you'll soon find that you'll be willing to do without lots of little catch-penny things for the sake of owning a nice comfortable bond."—Anne B. Aynes.

What is probably the greatest constructive program planned for the East Coast of Florida since Henry M. Flagler carried out his nationally famous feat of railroad building and pushed a chain of shining rails 400 miles down the East Coast of Florida and 122 miles over the ocean to Key West is now being undertaken by the Florida East Coast Railway. The improvements planned by the line will involve an expenditure of many millions of dollars. This will be in addition to the heavy expenditures in recent years. Announcement of the great program which will mean much for the growth and development of the entire East Coast of Florida was made by General Manager H. N. Rodenbough of the Florida East Coast Railway.

The developments will place additional facilities at the disposal of the vast throngs who enjoy the wonderful scenic journey down the Atlantic Coast of Florida, a trip in which, for two hundred miles, beautiful vistas of the inland waterway, fringed by palms, pre-

sent every charm of the semitropics. It will open up a new and fast disappearing frontier in the Florida Everglades.

As a whole, the project includes double tracking the main line of the Florida East Coast Railway between Jacksonville and Miami, a distance of 366 miles. Construction is already started and thousands of men are at work. The Florida East Coast Railway's Okeechobee branch which extends from New Smyrna down the interior of the state of Okeechobee on Lake Okeechobee, will be continued on through the Everglades connecting with the main line near Miami. The first link will soon reach Canal Point on Lake Okeechobee, while the link to meet it will be pushed forward rapidly from the main line through Hialeah and past the big plant of the Pennsylvania Sugar Company on the Miami Canal.

A belt line around the city of Miami having a total length of about 19 miles will also be constructed for the purpose of moving through freight trains over it, relieving congestion and also opening up new areas for development. In addition, the Florida East

Coast Railway Company will also make the largest purchase of rolling stock in its history, including 20 mountain type locomotives, some of which are of the type purchased in 1923, five switching type locomotives, 200 ventilated box cars, 250 rock cars, 190 ballast cars, and other equipment. The huge locomotives, with tenders, have each a total weight of 515-600 pounds.

Modern St. Augustine, oldest city in America, Ormond, Daytona, Seabreeze, New Smyrna, Fort Pierce, world-famous Palm Beach, Fort Lauderdale, Miami, Homestead, and the quaint and beautiful city of Key West are among the East Coast resorts which are preparing for their greatest winter season. The Florida East Coast Railway Company is encouraging an earlier and longer winter tourist season and will begin with its winter trains making through connection with the North on November 17th. Additional trains will be put on December 2nd and December 30th, so that in the principal cities of the North the traveler may be able to take the sleeper and wake up at his destination in the Land of Flowers.

that traffic cops won't bother you, but will help you in every way to observe and understand the "big town" traffic signals.

Police Chief Trammel has given just such instructions to the traffic squad.

The order was inspired by the high compliment paid the local police by a man from Charlotte, N. C., recently. He got mixed up on the red and green lights, but said a big policeman, in-

stead of "hawling him out," was as polite as a basket of chips and as friendly as if he had been the Carolina man's long lost brother.

The Mexia Retail Merchants Credit Association will hold a get together feed at the Topic Cafe tonight at which time a business program will be given and the work of the association thoroughly gone over, according to John I. McElroy, president.
